BURIED IN BERMUDA

[OUR SPOTIFY](#) | [OUR YOUTUBE MUSIC](#)

Formed in 2021, we are a four-piece heavy alt-metal & rock band armed with an eclectic catalogue of original material. Our ethos is hard-hitting songs with meaningful, thought-provoking lyrics that inspire and resonate with our audience and fans. With influences from metal, grunge and hard rock, we take fierce riffs, soaring vocals, and tight rhythm to craft what is unmistakably the Buried in Bermuda sound.

Our music has been played on **BBC Introducing** and to other Global radio stations. We've played multiple festivals, been on two UK tours and racked up over **44,500** streams on Spotify alone. Played a sold out 400 cap Thekla show and were selected out of 1000s of bands to audition for the Glastonbury Presents: Pilton Party in front of judges from big festivals including **Sir Michael Eavis**.

For Fans Of: Alter Bridge, Avenged Sevenfold, Queens Of The Stone Age, Audioslave

JAMES THRELFALL
BBC RADIO INTRODUCING WEST

"Their whole ethos is to bring some of the hardest hitting music they can, it's their mission statement... They want to make you move and blow up your speakers in the process."

ADIE WHITE
THE BRISTOL GIG GUIDE

"Bristol's own Heavy Alt-Rock Powerhouse, Buried in Bermuda, have quickly evolved from a fledgling 2021 project into one of the most promising British acts who are already primed to break through further in 2025."

NICK ASHTON
EMERGING ROCK BANDS

"Their sound is a storm of muscular riffs, soaring vocals, and relentless rhythms, cut through with raw, unflinching lyricism. Plenty of bands can make a noise. Buried In Bermuda make a connection. And at The Fleece, that connection reverberated through every corner of the room."
